In keeping with UTS’s commitment to environmental sustainability, this prospectus has been produced using environmentally-friendly, vegetable- based ink. It is printed on Nordset paper, produced by Nordland Papier, a company certified under ISO14001 environmental management systems. Under our environmental sustainability initiative, UTS aims to:

> demonstrate leadership in sustainable development in the university sector
> work towards a sustainable future with other universities, government, communities and industry partners
> develop environmentally sustainable and responsible campuses that will foster sustainability values and principles to students and ensure enhanced levels of compliance with relevant environmental sustainability legislations, standards, and agreements.

In a national first, the ATN set a collective target to reduce emissions by 10 per cent over the next four years to 2012/13. Within the ATN agreement, UTS has committed to a 30 per cent reduction in greenhouse gases (from 2007 levels) by 2020/21.

For more information, visit www.sustainability.uts.edu.au
Welcome

I’m pleased to introduce you to the UTS Study Abroad and Exchange program; a world-class educational experience providing opportunities to broaden your academic, personal and professional horizons. The UTS Study Abroad and Exchange program offers an excellent education at one of Australia’s top rated teaching universities\(^1\), combined with a rich, exciting learning experience in Australia’s global city – Sydney.

UTS values the contribution made by exchange and study abroad students and it is always my pleasure to speak with the newly arrived students at Orientation. UTS welcomes over 300 study abroad and exchange students each semester and I am always impressed by the cultural and linguistic diversity of students who choose to study abroad at UTS. With over 30,000 students from 115 different countries including Australia, UTS is a reflection of Sydney’s multicultural diversity.

At UTS, you will be provided with social and cultural opportunities in the classroom, on campus and beyond. You will be welcomed and assisted by UTS International staff and experience the warm hospitality of the Peer Networkers when you participate in the fun of Orientation. UTS has a vibrant campus culture with many activities taking place including barbecues, festivals and parties, a sports and recreation program, and other social events bringing together local and international students throughout the semester.

At UTS, we enjoy a reputation for producing work ready graduates who meet the highest professional standards. We provide our students with strong academic credentials, global skills and practical experience. As a result, UTS produces highly employable graduates.

A place in the UTS Study Abroad and Exchange program offers you both an internationally respected education and the chance to build an exciting and varied study program. Our strong partnerships with industry and professional bodies produce courses that are innovative, industry-relevant and cutting-edge. At UTS, you can enrol in subjects across all faculties and design a study program that suits your needs.

UTS provides a hands-on style of teaching and learning that builds practical skills and academic knowledge, challenging you to think critically and actively learn.

As you read through this prospectus, you will discover all the benefits of studying at UTS and living in Sydney – where you can enjoy a world-class education in the heart of one of the world’s great global cities.

I look forward to seeing you on campus in the near future.

\(^1\) UTS was rated in Band A across all disciplines by the Australian Government’s Learning and Teaching Performance Fund over the last two years (2008 and 2009).

Professor William Purcell
Deputy Vice-Chancellor and Vice-President (International)
UTS: SYDNEY’S CITY UNIVERSITY

UNIVERSITY OF TECHNOLOGY, SYDNEY

The University of Technology, Sydney (UTS) is a dynamic, cosmopolitan university situated in Australia’s global City of Sydney. In partnership with the City of Sydney, UTS promotes a vibrant cultural and educational precinct, including development plans that will open up our City campus to pedestrians and connections to adjacent transport, commercial and cultural hubs.

UTS has strong relationships with Sydney business and industry, including professional representatives on all faculty academic advisory committees and a recently established Creative Industries Innovation Centre, bringing together academic and industry partners in state-of-the-art facilities.

With our multicultural student population, strong ties to industry and central location, UTS is an integral part of Sydney.

From UTS, it is:

> 10-minute train ride to Sydney Harbour Bridge and Opera House
> 10-minute walk to cinemas, theatres, cafes, galleries, markets and live music venues
> 30-minute bus ride to Bondi Beach
> One-hour train ride to bushwalking, camping and rock climbing in the Blue Mountains

LIVING IN SYDNEY

Living and studying in one of the world’s most multicultural cities will develop your interpersonal skills and cultural knowledge, and enhance your ability to adapt in new and changing environments. Sydney is Australia’s oldest and largest city. It is also one of the safest cities in the world.

Located on Australia’s east coast, Sydney enjoys 230 days of sunshine and blue skies each year. Sydney combines the best aspects of Australia in a global city: from its natural beauty to world-famous architecture, and a culture as renowned for its fine food, fashion, technology and creative arts, as it is for nightlife and surfing.

The city is a national hub for global industries such as business, financial services, law, telecommunications and the media, and home to more regional and international business headquarters than any other city in Australia.

Sydney regularly ranks in the top 10 of the widely respected Mercer Quality of Living Survey and The Economist’s ‘World’s Most Livable Cities’ survey, ahead of all other Australian capital cities.

In 2008, Sydney ranked as the world’s best city for travellers for the seventh consecutive year in Condé Nast Traveler magazine’s Readers’ Choice Awards. Despite its high standard of living, life in Sydney is less expensive than many other international cities in the UK, Europe, China, Japan and the USA.

UTS: SYDNEY’S CITY UNIVERSITY

Sydney Opera House

Set against the beautiful backdrop of Sydney Harbour, the Opera House was inscribed in the World Heritage List in June 2007. “Sydney Opera House is a great architectural work of the 20th century. It represents multiple strands of creativity, both in architectural form and structural design, a great urban sculpture carefully set in a remarkable waterscape and a world famous iconic building.” UNESCO

The Opera House hosts a diverse range of performances, including opera, ballet, theatre, film and popular music, and offers discounts for patrons under the age of 27.

Sydney Harbour Bridge

Affectionately known as ‘the Coathanger’, the Sydney Harbour Bridge is a Sydney icon. Opened in 1932, it is one of the world’s largest steel arch bridges. The bridge is the centrepiece of Sydney’s annual New Year’s Eve fireworks spectacular. Over 2 million people from around the globe have climbed its arch in the 10 years since the climb opened.

Experience Australia

Explore the beauty and excitement of Sydney – and Australia – through the UTS Union’s Sport and Recreation Program. Offering day trips, holiday adventures, short courses and social sport, this program is an affordable and hassle-free way to meet people and make the most of your sojourn in Sydney.

Discover the beauty of the Blue Mountains, Hunter Valley, Canberra, South Coast, Central Coast or Jenolan Caves. Experience the thrill of jumping from a plane, go-karting, canyoning, abseiling or white water rafting. Or relax in the great Australian outdoors with a day of horse riding, dolphin or whale watching or sailing on Sydney Harbour.

Take a short course to learn a fun new skill and make friends along the way. Salsa dancing, SCUBA diving, sailing, fencing and ballroom dancing are just some of the four to eight week courses on offer.

Travel Australia. Visit Melbourne and watch an Aussie Rules football game or the Formula One grand prix; learn to surf at NSW’s beautiful Byron Bay or head south for a weekend of skiing and snowboarding. Or enjoy a fantastic week-long trip up north to Fraser Island, the Gold Coast and Great Barrier Reef.

For more information, visit: www.utsunion.uts.edu.au
INNOVATIVE AND RECOGNISED COURSES
UTS fosters innovation and academic excellence across a diverse range of both traditional and emerging areas of study. Our courses are continually updated to reflect relevant developments in research, technology and industry, putting UTS students at the forefront of professional knowledge for their study area.

Many of our courses in Business, Architecture and Building, Engineering, IT and Science have accreditation with a wide range of professional associations and governing bodies, giving our students the capacity to work internationally. For example, students graduating with a Bachelor of Engineering from UTS are eligible for graduate membership of Engineers Australia. This means their degree will be recognised by all countries in the world and they are already familiar with their future professional context. UTS graduates have the capacity and the professional knowledge to real-world problems. Professional placement and work-experience subjects equip students with valuable practical skills and the beginnings of a professional resume, distinguishing UTS students from their peers.

TEACHING EXCELLENCE
Our excellent teaching and learning standards have been consistently recognised by the Australian Government. In 2008, we were one of only two universities in the country to be rated in Band A1 in all four discipline groups of the Government’s 2008 Learning and Teaching Performance Fund. UTS staff also received five citations for outstanding contribution to student learning in the 2008 Learning and Teaching Council Awards.

CAREER-RELEVANT EDUCATION
UTS is a leading provider of professional, career-focused education. Our courses will equip you with practical skills you can use anywhere in the world.

WORLD-CLASS FACILITIES
UTS has a wide range of technologically advanced facilities catering for your academic, social and sporting life at university. Our lecture theatres are equipped with multimedia projection facilities. We have advanced remote access computer networks and wireless internet, as well as 24-hour access to computer labs.

Our recently-renovated science building has one of the largest concentrations of advanced analytical equipment outside industry in spacious, well-apted laboratories. We have remotely accessible engineering and software labs and the facilities available for our media production and design students are state-of-the-art. New photo media and editing facilities have recently been installed and our audio labs will continue to expand over the next three years. Our nursing and midwifery labs are equipped for higher fidelity simulation of a range of clinical scenarios.

EXCELLENT SUPPORT
UTS provides comprehensive support for international students – from our dedicated UTS International staff to English language assistance and the enthusiastic Peer Network student volunteers.

Many of the staff working at UTS International are from diverse cultural backgrounds or have lived abroad, so we understand the stress involved in moving to a new country and studying at a new university. We will ensure that you receive the information and assistance you need for a smooth transition to study at UTS and life in Sydney.

We really look forward to seeing you at Orientation and inviting you to attend the Welcome to Study Abroad and Exchange Party held each semester.

For more information, see pages 16-17.

RESEARCH LEADER
Practical innovation is how we describe our approach to research. At UTS, we strive to develop pioneering research solutions which have a real impact on communities both at home and abroad. In 2008, UTS attracted over A$51 million in competitive external research funding.

We’ve developed a reputation for research in emerging fields, and have 25 established research strengths covering business, creative and civil societies, environmental sustainability, health, and science and technology.

Because our programs are taught by world-class researchers and practitioners, you will benefit from the best minds and most current practices in your field.

COLLABORATIVE NETWORKS
UTS has many high profile industry links, providing students with networking opportunities. We are a founding member of the Australian Technology Network (ATN), an influential alliance of five leading Australian technology universities building strategic partnerships undertaking solution-based research.

UTS also collaborates with universities across Australia through six Cooperative Research Centres which bring together researchers from universities, government laboratories and industry to achieve real outcomes of national economic and social significance.

We are a founding member of the World Cities University Network, and one of 22 elite universities affiliated with the International Strategic Technology Alliance (ISTN).

"Australia’s tertiary education system is quality-driven. There are not too many universities, allowing quality education to be concentrated in a select few institutions. Sydney is also one of the most beautiful places in the world, which is another beneficial factor to studying here."  
Name: Christopher van Opstal  
Home country: Germany  
Studying: Communication and Law
Combining study with travel, cultural and social experiences, study abroad is a chance to increase your employability, build confidence and skills and explore your potential.

Through the UTS Study Abroad and Exchange program, you can complete one or two semesters of study or research in Australia and earn credit towards your degree at your home university.

STUDY ABROAD

Studying abroad can be one of the most rewarding experiences of your life, but it can also be challenging to organise. We recommend that you discuss your study abroad plans with an advisor at your home institution before applying. It’s important to check that your home institution will allow you to transfer credit for subjects studied overseas.

For information on tuition fees and how to apply, see pages 20–21.

GLOBAL EXCHANGE

UTS has bilateral exchange partnerships with more than 160 universities in 29 countries, providing students from partner universities with an opportunity to study at UTS for a semester or two. As an exchange student, your application will be managed by the international office at your home institution. It is essential that your exchange application be approved by your home institution before you submit it to UTS.

While you won’t pay tuition fees at UTS, you will still pay your regular tuition fees at your home university.

For a full list of partner institutions, please refer to page 22.

More details on how to apply and eligibility as an exchange student can be found on pages 20–21.

VISITING RESEARCH STUDENTS PROGRAM

If you are a postgraduate research student, you may consider spending one or two semesters at UTS to work on your research or enrol in coursework as a study abroad student. This research opportunity is offered in all faculties provided academic supervision is available.

The first step is to discuss the possibility of study abroad with your supervisor at your home institution. Students enrolled in the Visiting Research Students Program pay study abroad tuition fees.

For full details on how to apply, visit www.uts.edu.au/international/prospective/studying/abroad.

WHERE YOU CAN STUDY

UTS City campus

The UTS City campus is in the heart of Sydney, a five minute walk from Central Station – Sydney’s major train and bus station. From UTS you can stroll to the Central Business District, Chinatown, Darling Harbour and the Queen Victoria Building in the hub of the city. Studying at UTS will place you at Sydney’s vibrant centre.

The City campus is home to Communication, Design, Architecture and Building, postgraduate Education, Engineering, Information Technology, International Studies, Nursing, Modelling and Health, Law and Science, as well as the majority of our Business courses.

UTS Kuring-gai campus

Our Kuring-gai campus is located in the beautiful Kuring-gai Chase National Park, only 30 minutes north-west of Sydney’s Central Business District. Kuring-gai campus is home to undergraduate Education, and Leisure, Sport and Tourism subjects.

Bus and train services travel to nearby Lindfield station, and there is a bus service from Lindfield to the campus. UTS provides a free shuttle bus service that runs regularly between the City and Kuring-gai campuses.

STUDY OPTIONS

Choose from a diverse range of innovative and industry-relevant subjects that will enhance your home degree and add an international perspective to your studies.

BUSINESS

www.business.uts.edu.au

UTS is accredited by AACSB International – the Association to Advance Collegiates Schools of Business – an elite group that makes up less than 10 per cent of the world’s business schools. Accreditation confirms our commitment to quality and continuous improvement through rigorous and comprehensive peer review, and demonstrates our commitment to being benchmarked against international standards.

COMMUNICATION

www.communication.uts.edu.au

As one of Australia’s most established educators in Communication, we provide a dynamic mix of cross-disciplinary and professional study that brings together the best of contemporary and traditional research in the field.

We have cutting-edge production facilities, equipment and software which production students can use. There are also new media and computing facilities that are only available to Communication students.

DESIGN, ARCHITECTURE AND BUILDING

www.dab.uts.edu.au

Our courses give students the capacity to work internationally through professional recognition. An integral part of all courses at DAB is the use of the latest technologies of practice. As such, DAB’s excellent resources assist our graduates to succeed professionally as they have extensive experience in using the equipment that their careers require for future practice.

EDUCATION

www.education.uts.edu.au

UTS Education has a strong, practice-oriented approach to learning with subjects that prepare students for work in the full range of educational contexts, from school to corporate and community education. Subjects are delivered in a flexible manner, involving face-to-face and interactive web-based training.

“it’s an amazing experience being so far away from home and knowing that you are becoming someone and doing something with your life. it’s a change of culture, of lifestyle, habits, and at the end that’s all that counts.

“so far what i’m enjoying the most is the experience of living by the beach and still being able to have the city just a leap away. having the opportunity to grow not only in an educational way, but also as an active person and, of course, i could never put aside the shopping...

‘after i got settled with a place to live, it didn’t take me long to find a part-time job. also, when i graduate i hope to continue my studies here in Sydney for a future specialisation.’

Name: Carolina Cokzumel Diaz Pallares

INTERACTIVE MULTIMEDIA
www.iml.uts.edu.au/courses
Our subjects are interdisciplinary, drawing on computer studies, media studies, design studies, and other relevant disciplines. They are designed to educate innovators and future leaders across the variety of professions working in multimedia.

INTERNATIONAL STUDIES
www.uts.edu.au/IS
UTS:International Studies offers courses which combine the study of a country, its language and culture. We teach practical language skills from beginner to advanced levels, emphasising the four key skills of speaking, listening, reading and writing in contexts that are relevant to the countries where the languages are spoken.

LAW
www.law.uts.edu.au
UTS:Law courses prepare you to initiate and respond to critical developments in society – locally and internationally. Our courses are academically rigorous and have direct relevance to professional practice. UTS is the only university in Sydney to offer community-based assessment. This means you can complete a project for your assessment rather than doing an exam, which is great for your experience and your resume.

NURSING, MIDWIFERY AND HEALTH
www.mnh.uts.edu.au
UTS:Nursing, Midwifery and Health is top ranked in health teaching and learning in Australia. We are leading the integration of simulation technologies into undergraduate nursing courses in the country, meaning our graduates have plenty of hands-on experience. At postgraduate level, we offer a range of cutting-edge courses for practicing health professionals, all developed in consultation with our industry partners.

SCIENCE
www.science.uts.edu.au
UTS:Science offers innovative research and teaching disciplines such as traditional Chinese medicine, biotechnology and nanotechnology, as well as traditional areas of scientific pursuit including physical, chemical, environmental, biomedical, health and mathematical sciences.

Our Environmental Science program includes field trips to the desert landscapes of western NSW, the Great Barrier Reef, and the mountains of southern NSW.

Our Biomedical Science course is accredited by the Australian Institute of Medical Scientists (AIMS). AIMS accreditation is recognised for employment in medical laboratories in the UK and the USA.

EFFECTING CHANGE BEYOND THE CLASSROOM

With UTS sponsorship, Bachelor of Business student, Deepa Gupta is working to empower the almost 700 million Indians aged under 35 to take effective action against climate change. A co-founder and Executive Director of the Indian Youth Climate Network (IYCN), Gupta’s passion for sustainability began in 2006 when she enrolled at UTS and signed on to the Enviro Collective – a UTS Students’ Association group dedicated to saving the environment. In 2008, Deputy Vice-Chancellor (Resources), Patrick Woods, decided to sponsor Deepa as a collective – a UTS Students’ Association group dedicated to saving the environment.

To facilitate learning about Australian culture, the ELSSA Centre arranges for each student to experience life at UTS and in Sydney through: a one-week ‘shadowing’ program with a UTS buddy; a one-semester observation of a selected subject in a UTS faculty; excursions to places of cultural importance.

The ELSSA Centre is one of the longest-established university language centres in Australia, with a first-class reputation for teaching and research. For further information, please visit www.elssa.uts.edu.au

ADVANCED DIPLOMA IN AUSTRALIAN LANGUAGE AND CULTURE

As an exchange or study abroad student, you can enrol in the Advanced Diploma in Australian Language and Culture (ADALC) offered by the UTS ELSSA Centre. Subjects undertaken in this university course will be credited towards your home university degree.

The ADALC is offered at this level:

<table>

</tbody>
</table>

The ADALC provides English language development through the study of Australian society and culture, and may be undertaken by students who:

> are second language speakers of English
> have an English language test score lower than the UTS entry requirement

There are two options for the length of program undertaken:

1. study ADALC for one or two semesters full time
2. study ADALC for one semester then take an IELTS or TOEFL test; if you meet the UTS entry requirements, you can enrol in UTS faculty subjects for the second semester.

The ADALC is comprised of eight subjects:

Semester 1

</table>

Nowadays it’s more important than ever to have some overseas experience before going out into the workforce. I chose Australia because I wanted an English-speaking country and the UK is too close. I had been to Australia previously and knew that I liked it, so my decision was made. Sydney is a great city. It’s so multicultural and there’s so much to do! UTS is located in the centre of the city, so everything you need is in front of you. “UTS is a great university. I’ve made use of a lot of the services they offer, for example ELSSA which is the English language support centre. They helped me with academic writing and the language in general. The computer lab facilities are also very impressive and the lecturers are very approachable.”

“I would say to any future student that this is a really good experience and, as they say in Australia, ‘I’ll go for it!’

DESIGN YOUR OWN STUDY PACKAGE

As a study abroad or exchange student, you can choose from hundreds of subjects, across a range of disciplines. The sample study packages below are designed to show how you can tailor a cross-disciplinary study program to suit your interests, develop a specialisation or give you an insight into Australian culture.

### AUSTRALIAN HISTORY & CULTURE

For more information on credit points, please see page 14.

**Please note:** Subjects with a practical component (such as nursing and teacher education) are restricted. Applicants’ eligibility to enrol in these subjects will be assessed on an individual basis.

Subject availability may depend on semester and enrolment numbers. Check with the faculty student centre about options if your preferred subject is not available.

### INDUSTRY COLLABORATION, DESIGN INNOVATION

When School of Design lecturers, Alison Gwilt and Professor Marie O’Mahony, approached the Ripcurl surfwear company about collaborating on their recycling venture, Project Resurrection, third-year fashion and textile students reaped the benefits.

Students were exposed to innovative techniques and their creativity was challenged working with an unusual fabric: neoprene. Using old wetsuits and offcuts from the wetsuit production process, students were asked to design garments on the theme of the exoskeleton.

Utilising techniques such as layering, sewing, cutting and bonding, they created new fabrics which they then incorporated into haute couture jackets of their own design. As well as mastering new skills, the students produced some original and arresting garments.

Seventeen of the 60 student works were displayed in the Fashion Technology exhibition held in UTS’s Tower building. Coinciding with Rosemount Australian Fashion Week, the exhibition gave students the opportunity to showcase their work to a wider audience from the fashion industry.

**“The Australian education and curriculum is quite different from my home country. The multicultural experience in every class is very unique. It brings different perspectives in every discussion that makes it more enriching and interesting. Also, it was interesting to see things done the Aussie way, and to see things in the Australian perspective, which is at times different from my own. Since classes in uni aren’t every day, we get to have fun while studying instead of purely studying the whole time.”**

USEFUL INFORMATION

STUDYING AT UTS

COURSEWORK INFORMATION
Course load
Study abroad and exchange students must enrol full-time. At UTS, the full-time study load is usually 24 credit points per semester. Credit points apply to all courses (except Masters by thesis and Doctoral programs) and represent a measure of the student workload by subject.

Credit point system
At UTS most subjects are worth 6 to 8 credit points. Credit points represent a measure of the student workload by subject.

As a guide for European students:

- 1 UTS credit point = 1.25 ECTS credits
- 6 UTS credit points = 7.5 ECTS credits
- 8 UTS credit points = 10 ECTS credits
- 24 UTS credit points = 30 ECTS credits

As a guide for US students:

- 6 UTS credit points = approx. 4 US credit Hours
- 8 UTS credit points = approx. 5 US Credit Hours
- 24 UTS credit points = approx. 15 or 16 US Credit Hours

Generally, study abroad and exchange students enrol in three or four subjects at UTS per semester.

Note: This should only be used as a guide. Please consult an academic advisor at your home institution to determine how your study abroad program will be credited.

System of teaching
Most UTS subjects are taught as a mix of lectures and tutorials. Some subjects incorporate seminars, presentations, laboratory work and/or individual study. Lectures, tutorials, seminars or laboratory sessions normally total between 12 and 24 hours per week.

All UTS lecture theatres are equipped with overhead projection facilities and most have video projection facilities, some of which are connected to the University’s network and the internet.

Assessment of coursework
Information about coursework assessment is given to you in the first lecture of each subject. Regular written assignments, tutorial participation, practical work, projects, short tests, seminar presentations and a final examination may form part of the assessment. In some subjects, the final examination may be worth 20 to 60 per cent of the final subject grade. Some subjects have no final examinations.

Class sizes
Class sizes vary depending on the popularity of a subject and the nature of teaching (for example, teaching in computing laboratories requires smaller class sizes). Normally, subjects involving tutorial classes have 15 to 25 students in a classroom. Lectures for some compulsory subjects, especially those offered at undergraduate level, may be held in large lecture theatres.

Transfer of credit – Exchange
As an exchange student, you will receive your academic transcripts from UTS through your home institution. At the end of each semester, the exchange officer responsible for exchanges to and from your university will send two academic transcripts to the international office at your home university.

Transfer of credit – Study Abroad
UTS automatically issues transcripts at the end of each semester. The transcript is a record of subjects studied, final grades and marks awarded. One original transcript is sent to each student’s home address. Upon request, an official copy of the transcript will be transferred.

UTS Study Abroad Program Certificate
Students who successfully complete the UTS Study Abroad program are issued a Certificate of Completion. This Certificate is issued with your academic transcript from UTS.

ACADEMIC YEAR
The academic year is divided into two main semesters: Semester 1 from March to June, and Semester 2 from July to November. Each semester has 14 weeks of teaching.

You are advised to arrive in Sydney at least two weeks before classes commence in order to participate in the new students’ Orientation program, enrol in classes, and find and settle into suitable accommodation.

GRADING SYSTEM OF UTS SUBJECTS
Students are awarded one of the following grades after completing a subject.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Mark range</th>
<th>Explanation</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>95-100%</td>
<td>Work of outstanding quality on all objectives of the subject.</td>
</tr>
<tr>
<td>A</td>
<td>90-94%</td>
<td>Work of superior quality on all objectives of the subject.</td>
</tr>
<tr>
<td>A-</td>
<td>85-89%</td>
<td>Work of good quality showing more than satisfactory achievement on all objectives of the subject.</td>
</tr>
<tr>
<td>B+</td>
<td>80-84%</td>
<td>Work showing more than satisfactory achievement on all objectives of the subject.</td>
</tr>
<tr>
<td>B</td>
<td>75-79%</td>
<td>Work showing a satisfactory achievement on all objectives of the subject.</td>
</tr>
<tr>
<td>B-</td>
<td>70-74%</td>
<td>Work showing an unsatisfactory achievement on one or more objectives of the subject.</td>
</tr>
<tr>
<td>C+</td>
<td>65-69%</td>
<td>Work showing an unsatisfactory achievement on one or more objectives of the subject.</td>
</tr>
<tr>
<td>C</td>
<td>60-64%</td>
<td>Work showing a satisfactory achievement on all objectives of the subject.</td>
</tr>
<tr>
<td>C-</td>
<td>55-59%</td>
<td>Work of acceptable quality on all objectives of the subject.</td>
</tr>
<tr>
<td>D</td>
<td>50-54%</td>
<td>Work of acceptable quality showing more than satisfactory achievement on all objectives of the subject.</td>
</tr>
<tr>
<td>E</td>
<td>45-49%</td>
<td>Work of acceptable quality showing more than satisfactory achievement on all objectives of the subject.</td>
</tr>
<tr>
<td>F</td>
<td>0-44%</td>
<td>Work showing an unsatisfactory achievement on one or more objectives of the subject.</td>
</tr>
</tbody>
</table>

Note: Some subjects award only a Pass or Fail grade. Semester 1 results are released at the end of July, with Semester 2 results released at the end of December.

ADVANCING ROBOTS
A research team from UTS and the University of New South Wales beat some of the best robot teams from across the globe at the world championship for intelligent robots in July 2009.

The Robocup Rescue Challenge involves both autonomous and remote controlled robots with the mission to navigate, map out and find dummy victims placed in a complicated environment which simulates a disaster area.

Calling themselves CASuality, the UTS/UNSW team won first place in the Autonomy category, second place in the Mobility category and finished fifth overall against a field of 40 teams.

The project has attracted both undergraduate and postgraduate student participation, including a “steady influx” of international students, according to Senior Research Fellow and CASuality team member Jaime Valls Miro. In particular, students enrolled in the postgraduate subject Advanced Robotics (6GF74) have the opportunity to learn firsthand the problems and challenges in the Robocup Rescue competition and develop software for the robot.

Robotic students benefit from the expertise of leading academics and cutting-edge technology available at UTS, as well as the collaborative strength of the cross-institutional team. UTS is one of three universities that are parties of the Centre of Excellence for Autonomous Systems – one of the largest robotics groups in the world.
ORIENTATION
www.orientation.uts.edu.au
To help you settle in and get to know yourself with the University campus and meet staff and students, UTS runs an Orientation program just before the beginning of each semester. This program is designed to familiarise new students with the University’s services and facilities. It’s also an excellent way to meet students and staff from Australia and overseas through social events such as the International Students’ Cocktail Reception and the Network Café Welcome Event.

UTS INTERNATIONAL
www.uts.edu.au/international
The UTS International team can assist you throughout the process of selecting subjects, accepting your offer, preparing to come to Sydney, arrival, and Orientation. Once you have arrived, we can assist you with settling in to your study program and life in Sydney. If you have any questions about studying at UTS, you can email studyabroad.exchange@uts.edu.au and ask us.

LANGUAGE AND STUDY SKILLS
www.elsa.uts.edu.au
At the ELSSA Centre, you can develop your English language, writing and study skills through short courses and workshops. ELSSA also provides individual assistance on academic writing and presentation. UTS also has drop-in learning centres, which provide academic support to students in specific study areas, including the Chemistry Learning Resources Centre, Education Study Skills, Engineering Learning and Design Centre, Mathematics and ICT Study Centre and Physics Learning Centre.

CAREERS ADVICE
www.uts.edu.au/careers
The UTS Careers Service has been nominated as one of the top four university careers services in Australia. The UTS careers Service has been established the Student ombud's office. www.uts.edu.au/oth/ombuds
To help you familiarise yourself with the 24-hour a day during semester periods. SAFETY AND SECURITY
www.uts.edu.au/security
UTS also has drop-in learning centres, which provide academic support to students in specific study areas, including algebraic support, computer science and study support services. The facilities include presentation and group discussion rooms, and silent study areas. Library computers are also installed with Chinese, Korean and Japanese softwares.

COMPUTER FACILITIES
UTS students have access to over 1000 computers in 40 locations including the library, as well as wireless internet access across the City and Kuring-gai campuses. There are also specialised faculty computer laboratories. Most computer labs are open from 8am to 10pm, with some open 24-hours a day during semester periods.

PERSONAL LEARNING
www.uts.edu.au/personlearning
U-PASS is a peer-based learning program designed to assist students who are studying subjects which are perceived as difficult or historically have a high failure rate. U-PASS leaders are trained senior students who have previously completed the subjects. They assist students in study sessions.

LIBRARIES
www.lib.uts.edu.au
The UTS Library offers a wealth of scholarly and study support services, with more than 500,000 printed and audiovisual publications as well as about 30,000 full-text journals and more than 70,000 electronic books available through its City and Kuring-gai branches. The International Librarian is dedicated to helping international students and those whose first language is not English. The Library runs training sessions to assist students in finding, using and organising information. The Library website offers 24-hour global access to the catalogue, Australian and international databases.

FINANCIAL ADVICE
www.uts.edu.au/fassist
The Financial Assistance Service provides a free, confidential service to help you manage your money, give advice about scholarships and fees, tax information and emergency financial help.

SPECIAL NEEDS
www.uts.edu.au/sneeds
If you have a disability or an ongoing medical condition which may affect your study, the Special Needs Service can provide information and advice on support services available to you. Charges for these services may be applicable.

STUDENT OMBUD’S OFFICE
www.uts.edu.au/oth/ombuds
To ensure that all students receive fair and equitable treatment at UTS, we have established the Student Ombud’s office. This is a confidential, impartial, impartial and non-adversarial service to sort out any problems students may encounter with the procedures and processes of the University.

CULTURE AND FAITH
www.uts.edu.au/chaplaincy
The Chaplaincy service provides a range of spiritual and cultural programs and services to meet the needs of students. The Chaplaincy service includes Christian, Jewish and Muslim chaplains.

CAREER NETWORKS
www.uts.edu.au/chaplaincy
The Chaplaincy service provides a range of spiritual and cultural programs and services to meet the needs of students. The Chaplaincy service includes Christian, Jewish and Muslim chaplains. There are also a number of clubs and societies which offer spiritual support.

HALAL FOOD PRODUCTS
www.uts.edu.au/chaplaincy
Halal food products are widely available in Sydney and on campus.

STUDENT ASSOCIATION
www.uts.edu.au/studentassociation
The Student’s Association represents all UTS students. Working within the Student’s Association are Overseas Students Officers – international students who volunteer to represent and support international students at UTS. The Student’s Association runs a food co-op where you can purchase fresh, organic fruit and vegetables, a second-hand bookstore and publishes the campus student newspaper, Verto.

“留学海外，可以挑战自己，提升自我，这是我从未设想过的。生活里的一切是那么的丰富多彩，让人流连忘返。我希望我能尽最大努力去学习知识，拓展视野，成为一个优秀的人才。留学生活，让我更加明白自己想要什么，我会朝着这个方向努力，实现自己的梦想。”

ACCOMMODATION

UTS HOUSING SERVICE
www.housing.uts.edu.au
email: housing.service@uts.edu.au
The UTS Housing Service can help you with accommodation information, from recommending initial temporary places to stay, to permanent accommodation. The Housing Service provides an online listing service of private rental accommodation available for students. The listing service is an easy way to find shared accommodation, apartments, houses and studios. The Housing Service can also help guide you with any concerns about your rights as a tenant once you are housed.

INDEPENDENT ACCOMMODATION
Most international students rent accommodation that is privately owned. The UTS private listings service, other property listings websites, campus student noticeboards and local newspapers all feature many advertisements for rental accommodation and are a great way to find somewhere to live. The Housing Service can also help with costing inquiries.

UTS-OWNED ACCOMMODATION
UTS owns four residences available to UTS students. These are Blackfriars, Geegal, Bulga Ngurra and Gumal Ngurang. All are close to the City campus.

> Blackfriars is a small group of self-contained rooms for postgraduate research students, in heritage buildings
> Geegal is a purpose-built group of townhouses with space for 38 students
> Bulga Ngurra is a modern, five-storey apartment building with space for 111 students
> Gumal Ngurang is the newest UTS residence and is a modern eight-storey apartment building with space for 253 students in a range of studio, one-bedroom and shared apartments.

The suburbs surrounding UTS offer many rental and share-house properties. Terraces, apartments, houses, studios and townhouses are available within a short distance of UTS.

Share accommodation means you have your own room and share a kitchen, living area and bathroom with other students or people who work. Students who wish to live on their own may choose a studio or one-bedroom apartment, but these are more expensive than share accommodation.

TEMPORARY ACCOMMODATION
The Housing Service can advise you on temporary accommodation options for your arrival in Sydney. Information on available accommodation and how to use this service can be found on the UTS International website www.uts.edu.au/international/prospective/about/housing.html

LONG-TERM ACCOMMODATION
Some international students plan to stay with relatives or friends who live in Sydney. Sydney is a large city and travelling into the centre of the city to attend classes at UTS can be expensive, time-consuming and tiring. It is a good idea not to make any permanent arrangement until you have lived in Sydney for some time to see if your living arrangement is practical.

FEEL AT HOME

Gumal Ngurang

LIVING COSTS
The table (right) details the approximate establishment and ongoing costs you may incur while studying at UTS in Sydney. This table should be used as a guide, as some students spend more or less than others.

ESTABLISHMENT COSTS
The establishment costs cover areas such as a rental accommodation bond (four weeks’ rent), rent in advance, furniture, telephone and internet connection, kitchenware and electricity connection. You should expect to pay approximately A$4,000 establishment costs for independent accommodation and approximately A$1,000 for UTS-owned accommodation.

COST OF LIVING

Since I was young I always really wanted to go to Australia – probably because of the pictures I’d seen. So when I had the opportunity to go on exchange, I thought of Sydney.

“The life I live now is a bit more expensive than at home. Going out is cheaper here, but I eat out a lot more than I normally would. Every weekend I want to go out but because I’m not here long and I want to make it special.

“You learn a lot about yourself on exchange. Normally I don’t like to be alone, but I really enjoy living in Bondi and being able to walk down to the beach when I take a break from study. I’m enjoying a life without obligations.

“I would recommend any exchange experience to other people, but UTS especially because I really like the programs, like Network Café and Orientation. From the beginning everyone is welcoming and helps you find your way around. Everyone is really helpful – even the teachers.”

Name: Saskia Willig
Home country: the Netherlands
Studying: Law
Study Abroad and Exchange requirements

Students who have completed one full year or more of study at a recognised institution with a Grade Point Average (GPA) of 3.0 on a 4 point scale may apply to join the UTS Study Abroad and Exchange program.

Students who have not completed one full year at a recognised institution may also apply for admission if they meet university matriculation requirements.

Visiting Research Students Program

Special entry requirements

Before submitting your application form, discuss the most relevant field of research for you to undertake at UTS with your home university supervisor. Contact the relevant faculty at UTS to discuss your research interests and identify a supervisor.

For more information, see Guidelines for Applying to the Visiting Research Students Program www.uts.edu.au/international/prospective/studying/visiting/abroad

English Language Requirements

If you come from Germany, France, Austria, Switzerland, Denmark, Sweden or the Netherlands, you are eligible to apply using alternative means of language assessment. To download the UTS English Language Proficiency Assessment application form, visit www.uts.edu.au/international/docs/UTS-english-language-assessment.doc

For details of exceptions, visit www.uts.edu.au/international/prospective/studying/abroad/entry.html

For the English language requirements of Engineering programs studied in combination with programs offered by other UTS faculties, refer to the relevant test score required for all other programs.

In some countries the Australian Embassy may have different English language requirements for those seeking a student visa. Check with your nearest Australian Embassy or Australian High Commission before registering for an English language test. For contact details, visit www.immi.gov.au

**Application deadlines**

STUDY ABROAD & VISITING RESEARCH STUDENTS

Semester 1 – 15 December 2009

Semester 2 – 31 May 2010

EXCHANGE STUDENTS

Semester 1 – 31 August 2009

Semester 2 – 31 March 2010

**2010 tuition fees per semester**

Study abroad A$9,048*

Visiting research A$9,048*

Exchange students Regular fees paid to home institution

*Please note: This is a flat fee for up to 24 credit points of study. Students undertaking additional credit points will incur additional fees. Higher fees may be charged for subjects that involve practical work.

**Financial aid**

The availability of financial aid for studying as a study abroad student at UTS should be discussed with the study abroad adviser at your home institution.

**Fees and scholarships**

For more information about fees and scholarships, visit www.uts.edu.au/international/prospective/studying/abroad/fees.html

**Refund of fees**

For a summary of the UTS policy, visit www.uts.edu.au/international/prospective/studying/fees/policy.html

**Visas and working**

As an international student, you must obtain a student visa before you can begin study in Australia. If you are given permission to work, restrictions will be placed on the number of hours you will be allowed to work in a week. This varies based on the kind of visa you hold. However, the following is usually allowed:

- **Allowable work hours**
  - During semester: A maximum of 20 hours a week, not including work that is a formal registered part of your course.
  - During recognised vacation periods: unlimited hours.

Please check this information and send inquiries to your local Australian Embassy or Australian High Commission before registering for an English language test.

For contact details, visit www.immi.gov.au

Health cover

Overseas Student Health Cover (OSHC) is a compulsory Australian Government requirement for student visa applications to Australia. The OSHC premium must be paid to UTS before you can receive your Confirmation of Enrolment (CoE) and obtain your visa. OSHC Fees for 2010 are $200 per semester.

Swedish and Norwegian students who have health cover in their home countries may be exempt from OSHC. To obtain detailed information on what is included in OSHC, visit www.health.gov.au/internet/main/publishing.nsf/content/privatehealthconsumers-oversasecover.htm

You may wish to consider obtaining additional health insurance for items not included in OSHC.

**For more information about fees and scholarships, visit www.uts.edu.au/international/prospective/studying/abroad/fees.html

For contact details and more information on visas, visit www.immi.gov.au

**Notification, including:

Within three to four weeks of applying, if successful, you will receive official notification, including:

- Letter of offer and acceptance form
- Subject approval information (enrolment will depend on scheduling and space availability)
- Online enrolment instructions
- Essential information for incoming international students

Once you accept your offer for the program you will be given the documentation needed to obtain a student visa and provided with detailed arrival information.

* Visiting Research Students: for full application procedures, please visit www.uts.edu.au/international/prospective/studying/abroad

**For each of your selected subjects check:

1. **Subject approval information (enrolment will depend on scheduling and space availability)**

2. **Is the subject undergraduate or postgraduate?**

3. **Are there any prerequisites?**

4. **Can you demonstrate that you meet the prerequisites?**

5. **Is the subject offered in the correct semester?**

6. **Is the subject offered at the correct campus?**

7. **Is the subject offered at the correct campus?**

8. **Is the subject offered in the correct campus?**
